

# COVID-19 // PPE VIRUS PROTECTION VISORS

Q's Virus Protection Visors are made from a 220mic optically clear PVC, with a white 220mic PVC headband, and offer a simple solution to avoid exposure as much as possible to the tens of thousands of tiny particles and droplets expelled when coughing or sneezing.

## *The visors have a range of features:*

- » Lightweight and disposable.
- » Designed and built to PPE category 1.
- » Lightweight optically clear PVC lens.
- » Fully adjustable soft foam headband.
- » Latex free, fibreglass free, distortion free.
- » Suitable for use with prescription lenses and surgical masks.
- » Manufactured from CE certified materials.
