

engage4 product fact sheet

engage4 provides a toolset to help improve your employee wellbeing and engagement via an easy to use mobile app.

Track, measure, encourage and improve employee wellbeing with points and badges designed to increase positive engagement and behaviour.

- Get a live pulse on how your entire staff is feeling.
- Drive a positive culture of recognition with High 5's.
- Support employee wellbeing through bite sized micro learning.
- Get instant feedback on what is working for your employees (and what is not) with real time surveys.
- Access exclusive content provided by wellbeing consultants, Workwise Wellness Solutions.
- Help to build employee community across your organisation with personalised news feeds, groups, events and challenges available to everyone.

Who will benefit from engage4?

Feature	How your employees will benefit	How HR will benefit	How the business will benefit
News feed & groups	Access reliable wellbeing information and guidance 24/7.	Instant feed of wellbeing content. You can also communicate organisational news, delivered in one place.	Always on wellbeing content at great value for the entire organisation.
Micro-learning	Learn more about wellbeing and track your progress.	A bite-size learning platform that provides an easy way to roll-out wellbeing tips, guides, education and see who's taken part.	Access to wellbeing content produced by a qualified expert, designed for learning at work, which can strengthen your employees wellbeing, reducing time spent off work.
Check in pulse	Easy to provide feedback on your wellbeing at work, helping you and your team. Feel your wellbeing is important and acknowledged.	Quickly understand how staff are feeling in real time.	Prevent disconnect from your employees and your organisation by staying connected and getting a sense of how they are feeling instantly.
High 5, employee recognition	Celebrate a colleague's achievement and show them their contribution was noticed.	Recognised employees are happy employees which helps retention and performance.	Quick and easy recognition is contagious, driving a positive and engaged work culture.
Quick pulse surveys	Being given the opportunity to feedback regularly on issues that impact you, gives employees a voice, and increases job satisfaction.	Ask questions and get instant feedback from across the organisation, helps you understand the needs of your employees and build an open and trusting organisational culture.	Better understand your employee engagement needs and priorities across the organisation.
Challenge tracker	Flexibility to set your own challenges, empowering you to take responsibility and making it personal to your individual wellbeing needs.	Empower your people to challenge themselves, and others on strengthening and protecting their wellbeing at work.	Help your employees stay engaged by tracking the organisations progress towards overall goals, for example reducing workplace stress and absence.

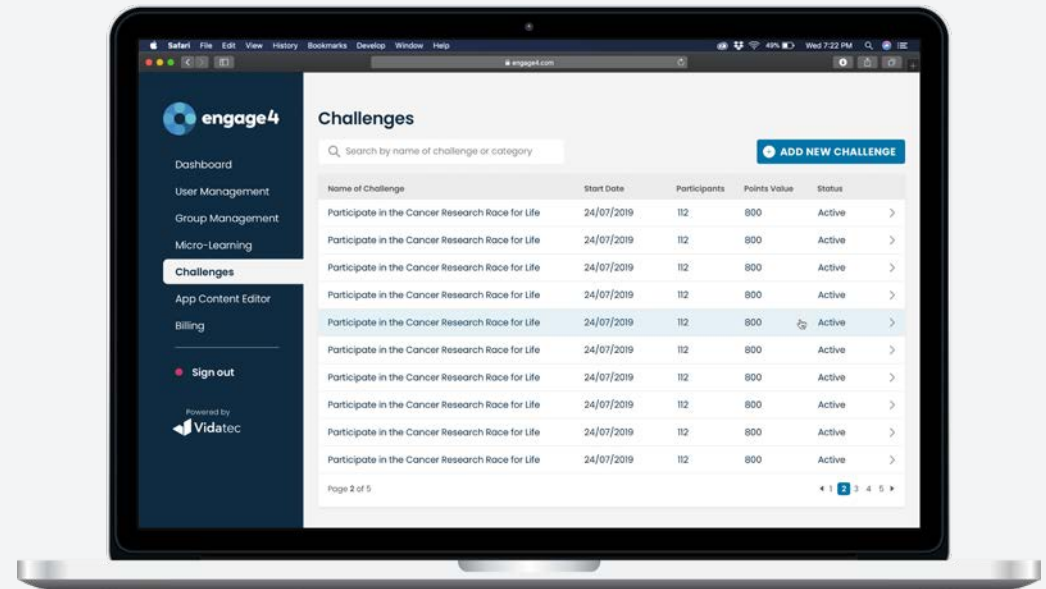

Getting you and your colleagues up and running

Our product specialist team are here to help on-board your organisation quickly and effectively in three simple steps:

1. We work with you to ensure your platform is set up to meet your organisation's specific goals to improve employee engagement and wellbeing. As well as establishing administrators, super users and champions within your organisation.
2. We provide a product tour including key app features as well as exploring the functionality within your CMS. This is further supported with access to online training videos and tutorials.
3. We help you develop a user adoption plan aimed to support user sign ups and increase employee engagement across the organisation.

Easy to use Content Management System

- Admin users have access to a dashboard with key metrics and charts with the ability to track how employees are feeling real time, and over time.
- View total points earned against target for the organisation.
- Adding users to engage4 is easy using CSV files to bulk upload up to 7000 users.
- Add and remove users as employees join and leave the organisation.
- Get an overview of all the groups employees create, with the ability to remove if needed.
- Create and publish micro-learning.
- Set up company-wide monthly challenges.
- Personalise your employee on-boarding with the app content editor.

About Vidatec

We're on a mission to improve people's experience of life through technology

An award-winning web and mobile app development company based in central Scotland and have been for 10 years. We work with forward-thinking brands and organisations to create inspiring digital solutions, with the main aim to improve people's lives in a more connected, convenient and entertaining way. We are the people behind the Couch to 5K app, which was developed alongside Public Health England and the BBC. We have also worked with the Army, Travelopia and SAGA among others.

Vidatec Security Standards

We adopt a security first least access approach to security. Security is crucial when designing and implementing our code base and infrastructure where applicable. The importance of security is key to our delivery and is outlined and governed through our security policies.

Vidatec Data Protection

GDPR is considered and we do the utmost to protect our user data whilst making sure we follow the relevant guidelines for data consent, disposal, availability and portability. All data is stored in cloud services within the UK, we make sure any third parties we use also adhere to strict GDPR and security policies.

We'll help you look after your employees
