INTERACTIVE WEBINAR

**IMPROVING
VACCINE
UPTAKE IN
SCOTLAND:**

IMPLICATIONS FOR COVID-19,
INFLUENZA AND OTHER
ADULT VACCINES

WEDNESDAY 29TH JULY

13:00-14:30

Our webinar will outline findings from recent vaccination behaviour research led by Dr Lynn Williams at the University of Strathclyde.

Q&A session to follow.

Research projects include “Intention to vaccinate against COVID-19 in high-risk adults,” as well as our two Chief Scientist Office-funded projects “Facilitators and barriers to seasonal influenza vaccine uptake in adults with chronic respiratory conditions” and “Barriers to uptake of influenza, pneumococcal and shingles vaccines in older adults.”
