Interview Series

Top Tweet earned 7,743 impressions

Listen to Jennifer Carruthers @rashielee speak about her drive to change the stigma of social care and achieve a future where social care nurses are valued like nurses in the NHS and other fields.

Social Care Campaign Interview Series

We interviewed a number of people who work in the care home and homecare sector for this campaign. Please take a look at the videos below and share them far and wide. It's important for everyone to hear honest experiences and stories from the workforce.

In this interview series, we hear the highs and lows of working in social care – what drew them to work in the sector, what motivates them to keep going and what they find challenging.

- 9 interview videos across care homes and homecare
- Released on Twitter, on Youtube and webpage

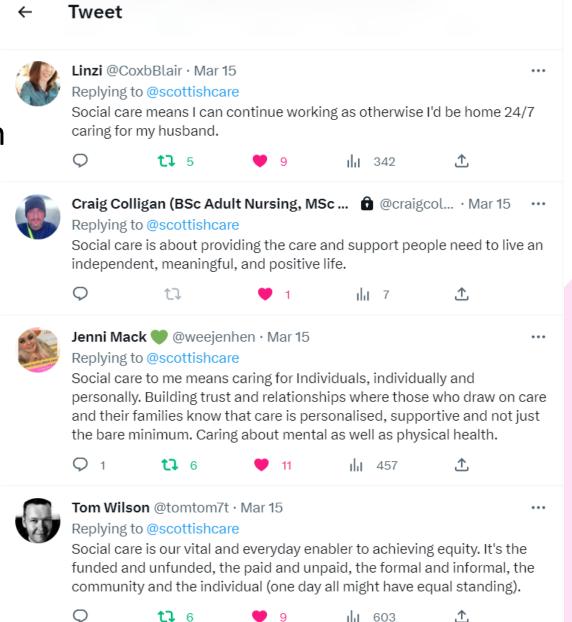

Twitter Chat

- 9 questions to get the conversation going
- Focusing on positives but also challenges in the sector

I pledge my support to #careaboutcare

I want to see:

The social care sector being recognised for its true value in society and supporting individuals to live fulfilling lives.

Social care workers getting parity with NHS colleagues in terms of pay and

Better pathways into the sector and resources from the Scottish Government to help address the recruitment and retention crisis.

More investment and funding to ensure the sustainability of the social care sector.
