

LEADING IN THE DIGITAL AGE BOARD DEVELOPMENT SESSION

Build an understanding of the mindset which underpins successful digital transformation.

Do you hold a board-level role within a health and social care organisation?

Would you like to explore your Board's issues through a different lens?

Do you want to put people at the heart of designing services?

OVERVIEW

This session is designed for board-level leaders (including executive and non-executive directors, trustees, and elected members) of health and care organisations to build understanding of how to strategically lead, govern, and support the digital transformation of health and care services.

FORMAT

The self-nominated session is split into 2 parts with additional information and resources available to enable participants to further their learning.

**Part 1: Video presentation
(1 hour - recorded)**

**Part 2: Expert-led, online,
interactive session (3 hours - live)**

FACILITATORS

Bringing with them their own experiences of board-level leadership and driving Scotland's digital agenda, our facilitators will guide you in exploring what a digitally empowered organisation looks like and provide key questions to consider as a board member.

**Professor Lesley
Holdsworth**

Clinical Lead Digital Health & Care in Scottish Government and Former Chair of Bield Housing

Carol Sinclair

Strategic Adviser to the Digital Health & Care Directorate in Scottish Government and Chair of the national Health & Social Care Data Board

Fanchea Kelly

Former CEO Blackwood Homes and Care, Current Vice Chair of Housing Rights in Northern Ireland

Lorraine McMillan

Former CEO of East Renfrewshire Council and experienced Non-Executive Director
